

The MEGA

Your Surveillance MAXIMIZED

Discover Solar Powered Surveillance Cameras With Worldwide Cellular Coverage Providing A Completely Wire-Free Installation.

The Mega

YOUR SECURITY **MAXIMIZED**

Discover the difference of the only full line of **solar-powered** security cameras with worldwide cellular coverage with the Eye Trax Mega security camera.

Maximize surveillance of your construction site with the crystal clear 12 MP image capabilities of the Eye Trax Mega that can create seamless time-lapse videos while keeping your security in sharp focus.

Capturing super high-definition images during daylight hours, the Mega lets you view your jobsite in detail from any device using our cloud-based software. With wire-free connectivity and fully autonomous solar-powered operation, the Mega provides unmatched surveillance of your construction site.

Solar-powered with rechargeable battery back-up for wire-free operation

4K ultra high-definition images during daylight hours

Time-lapse video and image overlay capabilities

Durable enough for any climate or worksite

Custom lens and mount options to suit your specific needs

3G/4G worldwide cellular connection

24/7 Cloud-based portal allows monitoring from anywhere

Easy setup and installation

Weather-tested and tough enough to handle the conditions of any jobsite, the Mega takes high definition images to create seamless time-lapse videos with our software.

Discover the difference of high-definition surveillance with the Eye Trax Mega security camera.

CHANGE YOUR PERSPECTIVE WITH The MEGA PTZ

The Eye Trax Mega series consists of two models: the fixed-mount Mega (shown above) and the Mega PTZ. Equipped with the same surveillance features as the fixed-mount version, the Mega PTZ (Pan-Tilt-Zoom) additionally allows you to remotely change the viewing direction of the camera. Zooming is executed digitally with the viewing software on the screen delivering even greater control of the surveillance of your site.

The Mega

YOUR SECURITY **MAXIMIZED**

A Higher Standard of High-Definition

The 12 MP capabilities and wide-angle lens options allow you to view more of your site in better detail than a typical security camera. Whether capturing high-definition images for time-lapse video creation or image overlay, the Mega always keeps your construction site in sharp focus.

POWER

Primary Source:
Solar (30-watt panel)

Secondary Power:
Internal Lithium Ion Battery

Battery Life:
7-days (no sun exposure)

Optional Power:
110/220 VAC (using charger)

CONNECTION

Transmission:
3G/4G cellular

Antenna:
Removable SMA 5db gain

IMAGING

Image Resolution:
12MP / 4000 x 3000

Fixed Lens Options:
45° (standard)
60° (wide-angle)

Capabilities:
Live Image (on demand)
Scheduled Image Acquisition

CLOUD SERVICES

Software:
Web-Based & Mobile Application

Storage:
Video and Image Archive (12 months)

PHYSICAL

Camera Dimensions:
(L) 18 in. x (W) 5 in. x (H) 5 in.
46 cm x 13 cm x 13 cm

Camera Weight:
10 lbs. (4.5 kg)

Solar Panel Dimensions:
(L) 21 in. x (H) 16 in. x (W) 1 in.
53 cm x 41 cm x 3 cm

Solar Panel Weight:
8 lbs. (3.6 kg)

PAN & TILT (optional)

Pan Range:
0° to 356°

Tilt Range:
0° to 70°

Weight w/ Bracket:
15 lbs. (6.8 kg)

ENVIRONMENTAL

Operation Temperature Range:
-40 °F to 140 °F
-40 °C to 60 °C

Camera Housing:
Weather-Proof Aluminum
Explosion Proof
IP66 Rating

Setup Made Simple

Installing our camera systems takes less than 20 minutes with our “ready to operate” shipping option. Simply power “on” after installation and you are ready to experience surveillance that always keeps your security in sight!

Mega Technology

Security Powered by the Sun

100% Solar-Powered. 100% Wire-Free.

With Eye Trax, you get a security camera system that allows for autonomous operation no matter how remote your location—thanks to the power of the sun. With just a minimum of six hours of direct sunlight, Eye Trax solar panels can effectively charge your cameras for seven days and nights of continuous operation.

Quick Tech Specs:

Required direct sunlight:

6 hours

Maximum distance panel to camera:

100 ft. (30 m)

Battery backup (no sun):

7 days

Our Cloud Has You Covered

SERVICES. SOFTWARE. STORAGE.

Services

As part of our expansive cloud services, we predetermine the best cellular provider for the location of your Eye Trax Ranger so you never have to worry about finding a signal. Your camera system arrives ready to operate, automatically connecting to the nearest cellular tower as soon as you power it on.

Storage

Our cloud services include unlimited cellular data transfer from each Eye Trax camera to our media storage system in the cloud. With photos and videos organized chronologically, you will easily be able to pinpoint the images you need when you need them.

Software

View, connect and control your cameras from anywhere with our cloud-based software. Using any web browser, you can access to your camera's command center, which allows for monitoring of your site through Live Look images and videos. You can share photos, request live pictures, browse previous images and videos, adjust settings and create time-lapse videos to take full control of your site's security from palm of your hand.
