LIVE CAMERA EVENT BASED MONITORING

CUSTOMIZED S.O.P

Customized S.O.P - It's documentation and standard operation procedure for our live agents to respond to. We follow this operating procedure for all incidents. You can customize it specifically for your business.

LIVE AGENTS IN REAL TIME

When the camera picks up an event. Our live agent's will review cameras in real time and follow the customized S.O.P for your business. The agents view, monitor and respond to real time events giving you a piece of mind your assets are protected.

INCIDENT REPORTING

Immediately and delivered by email. As resolutions unfold it's the sole responsibility of the business to finalize all incident resolutions. We provide the start of the documentation and take action following a customized S.O.P and allow you to plug n play into your processes.

OPERATIONAL CAMERA REPORTING

Having a camera down can leave you vulnerable and at risk which increases liability. We take that risk away by reporting un-operable camera reporting so you can focus on whats matters most.
